Informed Consent for Thermography

Please read carefully and sign below if you are in agreement with this consent form. Please ask questions if there is anything that you do not understand on this consent form.

I understand:

- Thermography is simply a procedure utilizing thermal imaging cameras to visualize and obtain an image of the infrared radiation (heat) coming from the surface of the skin. The Thermographic procedure is performed as an aid to the evaluation of abnormal temperature patterns which may or may not indicate the presence of a disease process.
- A thermogram is not a stand-alone diagnostic tool. It is an adjunctive tool, which while reliable, should be used by the primary care physician along with other diagnostic tests and analyses to arrive at a provisional or more complete diagnosis. No surgical procedure should be based on thermography alone.
- Thermography is not a replacement for any anatomical imaging tests (mammography, ultrasound, CT, MRI, etc.). Results of your thermogram may require further investigation by one or more of these tests.
- I will be disrobed relevant to the area of study to allow the surface of my body to cool to an ambient room temperature. I will then be examined with a digital infrared thermal imaging camera by a certified thermographer.
- My images will be interpreted by a board qualified or board-certified thermologist from Electronic Medical Interpretation Inc. This report will only be an analysis of the thermographic findings and will not be a guarantee that an illness, disease, or condition is present or absent.
- It is my responsibility to provide my health care provider with my report for further diagnosis and analysis in the overall evaluation of my health. Thermography is not a replacement for medical care, and I intend to remain under the care of my primary healthcare provider.
- I have been given a patient preparation form to ensure the most accurate thermographic evaluation possible. I have informed the thermographer of any skin lesions, bruises, wounds, etc. that may cause changes in my thermographic images.
- I am responsible for my own decisions regarding my health, wellness, and nutrition. Therefore, MEND Thermography cannot be held responsible for any decisions I make. MEND Thermography is not responsible for any supplements/care products I use or purchase through their store or online dispensary. I understand that I should talk with my physician before using any supplements or making lifestyle changes.
- I am aware that this procedure is not covered by insurance and that the office fee is due and payable at the time of service unless special provisions have been made with the office in advance.
- MEND Thermography will keep my information confidential unless I provide a written release or as required by law (HIPAA).

By signing below, I certify that I have read and understand the statements above, I have received satisfactory answers to all questions I may have had, and I consent to the thermographic examination.
